14 January 1957

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : IAC Agencies Reactions to CIA's Proposal  
Regarding Interagency Source Control

Preliminary informal inquiries disclosed that the reactions of the IAC agencies would probably be as follows regarding: (1) CIA's draft "Interagency Source Control Procedures" and (2) the proposal for the IPC to handle this matter:

Air Force: Agrees on both counts

Army : Agrees on both counts

Navy : Opposed to the IPC handling this matter and, in general, does not see the need of an Interagency Source Control

State : Agrees on both counts

JCS : Probably will agree on both counts

FBI : Probably will attempt to withdraw completely from Source Control activities. Since they also are not members of the IPC, it is therefore unlikely that the FBI will object to the IPC handling this matter.

AEC : Agrees on both counts
